

Summary of Formulary Benefits

The information in this document will help you understand the prescription drug benefits offered under this plan and to compare these benefits to those offered by other plans. Information in this summary will help you compare the value and scope of formulary benefits.

How to Find Information on the Cost of Prescription Drugs

This document and the Drug List will help you understand your options. This document will answer questions about:

- 1) Covered medications under Community Health Choice plans formulary
- 2) Lower cost medication options
- 3) Development of the formulary
- 4) Appeals
- 5) Medical Management

Community Health Choice offers web-based tool to determine cost sharing for drugs on our formulary. Cost-sharing information reflects a consumer's share of the cost. This cost excludes any deductible requirement. It is calculated using an estimate of the full price of the drug. This is based on the plan's median or the actual cost allowed amount.

A formulary is a list of brand and generic drugs which are covered by your plan. The formulary is a good way to choose the best drug for your condition at your lowest out-of-pocket expense. You can obtain more information about your pharmacy benefits by visiting our website:

<https://www.communityhealthchoice.org/en-us/plans-benefits/marketplace/know-the-details-2019/>

Community Health Choice requires Members to use generic medications when available. The Member will pay the applicable copay plus the cost difference between the brand and generic if a brand name drug is dispensed when a generic is available (multi-source brand). This is regardless of if the doctor's prescription indicates the branded medication should be dispensed. This amount will not apply to the Member's maximum out of pocket. The Provider must submit a prior authorization for medical necessity of branded medications when an equivalent generic alternative is available.

Formulary by Health Benefit Plan

You can view a comparison of pharmacy benefits for each plan on our website at :

<https://www.communityhealthchoice.org/en-us/plans-benefits/marketplace/know-the-details-2019/>

You can also view the Summary and Benefit along with Evidence of Coverage documents for our plans at:

Drugs by Cost-Sharing Tier

TIER NAME

Tier 1	21.45%
Tier 2	13.35%
Tier 3	32.62%
Specialty	6.97%
Medical Service Drugs	1.04%
Zero Cost Share	2.88%
Not Covered	21.69%

How Prescription Drugs are Covered under the Plan Formulary Composition

Community Health Choice formulary is a closed formulary. This means some drugs are excluded or not covered. The formulary is developed and maintained by a Pharmacy and Therapeutics (P&T) Committee.

The Community Health Choice delegated P&T Committee meets quarterly to review new drugs and new information on existing drugs available in the market. The Committee consists of licensed nurses, pharmacists, and physicians. It includes medical professionals employed by Community Health Choice's delegated PBM Navitus as well as those currently practicing in the community.

The task of the Committee is to review scientific evidence balancing the effectiveness and side effects of the drugs. This is how they determine the appropriateness on the formulary. The Committee's review, recommendations, and approval are based on information presented through peer-reviewed journals and national best-practice guidelines. These evidence-based outcomes may come from private parties (e.g. pharmaceutical companies) or public parties (e.g., government and/or medical associations).

The Committee will look at the overall value of the drug (including costs and current coverages) once the Committee has completed their clinical reviews. Then, they will decide its outcome on the formulary.

The committee may make a decision to

- (1) Add/remove a drug
- (2) Tier placement
- (3) Add/remove utilization management (UM) rules such as step therapy (ST), quantity limits (QL), and prior authorization (PA).

The committee may also choose to place drug(s) on the Exclusion List. This means the reviewed drug will no longer be covered on the formulary.

All committee members are bound by a non-conflict agreement that requires members to notify the committee if there are financial stake that may affect their decisions.

Right to Appeal

Contact Community Health Choice at 713-295-2294 or 1-855-315-5386

if you need to make a complaint or file an appeal. If your issue or concern is not resolved by calling Community Health Choice, you have the right to file a written appeal with Community Health Choice. Please send this appeal and related information from your doctor to: MAIL Community Health Choice, Inc. Attn: Appeals Coordinator 2636 South Loop West, Suite 125 Houston, TX 77054 FAX Community Health Choice, Inc. 713-295-7033 Attn: Appeals Coordinator

Continuation of Coverage

New members will be permitted a one-time override at Navitus' discretion for medications that require a PA (or ST). The override will be placed for one 30 d/s while the prescriber requests a PA. The intent of the one-time override is to allow the provider to submit a prior authorization request to Navitus for review.

Off-Label Drug Use

You have the right to seek review by an Independent Review Organization if a claim is denied as being experimental or investigational. Refer to the Appeals, Complaints and External Review Rights provision in the General Provisions section in this Contract for more information.

Prescription Drug Exclusions - Except as expressly stated otherwise, no benefit will be provided for, or on account of, the following items:

- a. Any drug prescribed for intended use other than for:
 - a. Indications approved by the FDA; or off-label indications recognized through peer-reviewed medical literature;
 - b. Any drug, medicine or medication that is either:
 - a. Labeled "Caution-limited by Federal law to investigational use"; or
 - b. Experimental or Investigational, even though a charge is made to the Covered Person

Cost Sharing

What you expect to pay depends on the type of drugs your doctor ordered for you. Each drug is placed in a Tier (or Level). Different tiers represent the different levels of payment for covered medications. Tier structures are developed to encourage you to use quality products at the most cost-effective option to you. The lower cost option does not represent a lower quality product. It is simply the best cost option considering covered products within that treatment category. You can be assured that drugs provided through your pharmacy benefit have been through rigorous processes to be approved by the FDA.

Community Health Choice has a separate pharmacy deductible for our Silver 002, and Silver 007 plans. The Gold 001/006 plans do not have a deductible. All of our other plans have a combined pharmacy and medical deductible. Generics are exempt from the pharmacy deductible (except for Bronze 008 HSA plan). The pharmacy deductible must be met in full before the plan will begin to pay for benefits.

- Tier 1: Formulary preferred generics and some lower cost brand products (listed on the formulary as Tier 1)
- Tier 2: Formulary preferred brand products and some higher cost generic products (listed on the formulary as Tier 2)
- Tier 3: Non-preferred formulary products (can include non-preferred generic products) (listed on the formulary as Tier 3)
- Tier 4: Specialty (listed on the formulary as SP or MSP)
- Tier 5: Medical Service Drugs – N/A
- Tier 6: Zero Cost Share Preventive Drugs (i.e., ACA covered products) (listed on the formulary as \$0)

The Mail Order Service allows you to receive up to a 90-day supply of maintenance medications. This program is part of your pharmacy benefit and is voluntary.

Generics First Requirement: Your plan encourages you to choose a generic drug over a branded drug to help reduce what you pay for overall health benefit. You will have to pay your copay where the generic alternative lies PLUS the difference in cost between the brand and generic drug if you choose to fill a BRAND drug where its generic equivalent is available. This applies even when the generic is in the same Tier group. You will only pay for that copay when a BRAND is preferred over its generic equivalent.

Medical Management Requirements

Drug coverage review is used to encourage appropriate and cost-effective use of prescription drugs by allowing coverage only when certain conditions are met. Some reasons for pre-certification may include:

- Compliance with dosing guidelines
- Avoid duplicate therapies
- Help health care providers check medically accepted criteria that helps ensure high efficacy and low side effects

Community Health Choice implements approval criteria based on FDA-approved labeling, national guidelines, best-practices and manufacturer cost/rebates arrangements.

Clinical Prior Authorization (PA): This edit is clinically based and looks at requirements such as appropriateness of indication, age, dose, lab values, and others for that specific prescription drug.

Quantity Limits (QL): Community Health Choice limits the quantity and dosing of certain drugs to be consistent with recommendations of the U.S. Food & Drug Administration (FDA). The quantity limit program can include limits on number of doses per day, maximum daily dose based on labeled dosing, and quantity over time. This includes number of prescription fills per month or year.

Step Therapy (ST): This drug coverage review promotes the appropriate use of equally effective but lower-cost drugs first. Prerequisite drugs are FDA-approved and treat the same condition as the corresponding step therapy drugs.

Restricted to Specialist (RS): This edit is clinically based and limits prescribing of certain high-cost or high-risk drugs to certain specialists who are trained to treat the associated disease states.

Some pre-certification processes are automated: Where we have your complete information for review in our system, the Prior Authorization approvals are automated at the pharmacy, and you will have no delays in access.

When the information we have for you does not meet approval criteria, your pharmacy may notify your doctor of the rejection and PA requirement. In which case, your doctor may choose to either make changes to obtain coverage for a similar drug, OR request for a prior approval of that specific drug.

The most common automated PA is the Step Therapy requirement. This is when the pharmacy system checks for a previously filled drug that meets the requirement for tried/failed first step drug, which is often a clinically comparable generic or brand drug.

Coverage determinations will be provided to you by mail within 72 hours from time of request for the first-level of determination (or within 24 hours for expedited requests). If approved, the corresponding Tier copayment will apply for that specific drug. If denied, you may still fill the prescribed drug, but you will have to pay for the complete cost of the drug. Our Pharmacy Benefit Manger (Navitus Health Solutions) performs our initial precertification drug reviews.

Search Tip:

This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar or using the CTRL+F search function from your keyboard. It will then display a search box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.

RxCents (Cost Savings Enabled by Tablet Splitting)

Tablet splitting helps control prescription drug benefit costs and can provide significant savings for members. Participation in the program is voluntary. Through this program, members pay up to one-half of their usual copayment on a select group of prescription drugs. Drugs included in this program are based on the following criteria:

- The drug product is on the formulary.
- The drug product is recognized as an appropriate product to split by the Pharmacy & Therapeutics Committee.
- The drug is flat priced (i.e. various strengths of the medication must be comparably priced).
- The medication must have once-daily dosing.

An example of the savings that can be realized through this program is illustrated below:

	Product & Strength	Quantity	Member Copay	Annual Savings
Without Tablet Splitting	Drug A 40 mg tab	30	\$15.00	
With Tablet Splitting	Drug A 80 mg tab	15	\$7.50	\$90

As the example illustrates, tablet splitting allows members to receive the same dose in a fewer number of tablets; thus, the overall cost of the medication is reduced. Members may obtain tablet-splitting devices free of charge by contacting Customer Service.
