Get Certified Early and Be Ready for AEP

Success during AEP begins long before the first enrollment application is submitted. Completing your Community Health Choice certification early is one of the best ways to prepare for a productive and rewarding enrollment season.

By certifying ahead of AEP, you'll be equipped with the latest plan information, benefit updates, and compliance requirements, giving you the confidence to guide your clients through their coverage options from day one.

Early certification also means less time spent preparing at the last minute and more time focused on helping members make informed healthcare decisions and growing your business.

Set yourself up for success by completing your certification as soon as it's available. The earlier you're ready, the sooner you'll be positioned to take advantage of every opportunity AEP has to offer.

Help More Members with D-SNP Opportunities

Every enrollment is an opportunity to make a meaningful difference in someone's healthcare journey. For individuals who qualify for both Medicare and Medicaid, a Dual Eligible Special Needs Plan (D-SNP) can provide enhanced benefits, coordinated care, and additional support tailored to their unique needs.

As a Community Health Choice Broker, you play an important role in helping eligible members understand these valuable coverage options and connect them with the benefits they deserve.

By identifying members who may qualify for a D-SNP plan, you can expand your Medicare business while helping improve access to care and enhancing the overall member experience.

Visit the Community Health Choice GetAligned resource center to learn more about D-SNP eligibility, benefits, and tools that can help you confidently support your clients throughout the enrollment process.
